TESTING SUMMARY

- Functional Testing and System Integration Testing,
- User Acceptance Testing
- Regression Testing
- API Testing, Database Testing and ETL Testing
- Financial Reports Testing KPMG and Deloitte Framework
- Payment Gateway Systems integrated with Banks
- Clearing and Settlement Process with Banks/CC Acquirers on EMV Transit Transactions
- GUI Testing using Selenium WebDriver
- Automation using Cypress (Maintenance)
- Behavior Driven Development
- Shift Left Approach - Testing on PR level / Feature Branch Environment

TEST CASE & DEFECT MANAGEMENT

- JIRA
- Microsoft Azure DevOps
- HP-ALM
- Serena Business Manager
- Rational ClearQuest
- Microsoft Team Foundation Server
- Github

API & AUTOMATION

- Postman
- JMeter
- Selenium Chrome Web Driver
- Cypress

ELLA MARIE RAMOS

TEST ANALYST | QUALITY ASSURANCE | TEST ENGINEER

PROFESSIONAL SUMMARY

- Total No of 16 Years of Working Experience
- 14 Years experience as Software Test Analyst with Specialization in Backend System
- 2 Years experience as a Application Support Analyst

WORK EXPERIENCE

MSI Global Pte. LTD | IT Consultant (Test Analyst)

Mar 2025 - Current, Singapore, SG

- Software Testing Process and Defect Management
- Test Execution and Verification
- Verification of Financial Settlement Reports (Tableau)
- Credit Card Authorization, Clearing and Settlement with Bank Acquirers (VISA, MasterCard, NETS 2.0)
 - Payment Gateways
 - Card Managers
- Application and Server Logs using UNIX Commands for issues investigation
- API and Webservices using Postman
- Developed SQL Scripts to perform verification in the Database System
- Test Planning, Test Summary Preparation, Test Result Reporting
- Design System Integration Testing Plan (AFCS)

OpenSolar | Quality Assurance Specialist

Jul 2023 - Feb 2025, Manila, PH

- Test Case Creation based on defined user stories and bugs for each sprint
- Estimate and Test planning on the GitHub tickets assigned every milestone
- Test Case Execution (Defect Retesting, User Story Verification, Smoke and Regression)
- Participating Scrum Ceremonies (Daily Scrum, Sprint Retro)
- Defect Management
- Test result status reporting

Prosource Global BPO | Senior QA Engineer

Feb 2023 - Jul 2023, Manila, PH

- Test Case Creation based on defined user stories for each sprint
- Estimate and Test planning on the workitem assigned every sprint
- Test Case Execution (Defect Retesting, Regression, User Story Verification)
- Test Data Preparation
- Participating Scrum Ceremonies (Sprint Planning, Daily Scrum, Sprint Review, Sprint Retro)
- Defect Management
- Test result status reporting
- Automation Test Scripting using Cypress on the stories or bug assigned for each sprint

Willow Technologies | Senior QA Tester

Jan 2022 - Jan 2023, Manila, PH

- Test Case Creation based on defined user stories for each sprint
- Test Case Execution (Defect Retesting, Regression, User Story Verification)
- Test Data Preparation
- Develop SQL Scripts for Data Verification
- Participating Scrum Ceremonies (Sprint Planning, Daily Scrum, Sprint Review, Sprint Retro)
- Defect Management
- API Testing and Mobile Device Testing
- Test result status reporting
- Production deployment planning on bi weekly basis
- Production Verification Test (PVT)
- Maintenance and Monitor of Automation Scripts every regression
- Triage and Root Cause Analysis of Automation Script Failures (Postman | Cypress)

Infor PSSC | Senior QA Analyst

Mar 2021 - Jan 2022, Manila PH

- Test Case Creation based on defined user stories for each sprint
- Test Case Execution (Defect Retesting, Regression, User Story Verification)
- Smoke Testing in release candidate for every sprint
- Develop SQL Scripts for Data Verification
- Participating Scrum Ceremonies (Sprint Planning, Daily Scrum, Sprint Review, Sprint Retro)
- Defect Management
- Test result status reporting
- Maintenance and Monitor of Automation Scripts on every build
- Triage and Root Cause Analysis on Automation Script Failures

MSI Global Pte. Ltd | Application Support Analyst

Jul 2018 - Jul 2020, Singapore SG

- Incident Management Process and Change Management Process
- Managing stakeholder's enhancement request until implementation
- Managing Disaster Recovery Plan Activities
- Gathered the Requirements for Migration Projects
- Supports on the following activities:
 - Software Deployment
 - System Maintenance on Network, Application and Database Server

CERTIFICATIONS

- B6058G IBM Cognos Analytics- Author Reports Fundamentals (v11.0)
- B6052G IBM Cognos Framework Manager: Design Metadata Models (v11.0)

APPLICATIONS/SYSTEM

- Automated Fare Collection System (AFCS)
- Informatica (ETL)
- IBM Cognos Analytics
- IBM DataStage (ETL)
- Payment Gateways integrated to the Bank Acquirers
- Reporting Tools
 - Crystal Reports
 - Tableau
 - Cognos
- Real Estate Management System
- Oracle CRM
- Kenan Order Management and Billing System (TELECOM)
- Oracle Business Intelligence Enterprise Edition (OBIEE)
- Online E-Commerce System

OS,SERVER & DATABASES

- WINDOWS
 - UNIX
- AIX
- IBM WAS
- IBM DB2
- Oracle 10G
- MS SQL Server
- PostgreSQL
- Toad
- Oracle SQL Developer
- SQLDBx

EDUCATION

De La Salle University-Dasmariñas, Philippines

2003-2007 Bachelor of Science in Computer Science

- Daily Monitoring of the following:
- Payment gateways integrated on Credit Card/Bank Acquirers on clearing and settlement process
- Multi-tiered AFCS Backend System Application running on IBM Websphere
- Application Server
- Processing of OLTP Transactions
- Scheduled Batch and Cron Jobs
- Incoming and Outgoing Message in the IBM Message Queue
- Logging Application Interruptions and Batch Job Failures
- Provide workaround to stakeholders to ensure continuity of daily operations
- Perform Preventative maintenance action based on the incident raised by stakeholders
- Perform RCA and in depth investigation for the critical escalated issues
- Developed of SQL Scripts for Data Extraction requests for financial settlement, reconciliation and statistical purpose

Land Transport Authority | Test Engineer / Test Lead

Oct 2011 - May 2018, Singapore SG

- Software Testing Process and Defect Management
- Transaction Generation via Application and Payment Gateways using JMeter and verify the reconciliation in the backend systems
- Test Execution and Verification
- Financial Settlement Reports using Deloitte Framework
- Credit Card Authorization, Clearing and Settlement with Bank Acquirers (**VISA, MasterCard, NETS 2.0**)
 - Payment Gateways
 - Card Managers (NETS /EZ-Link)
- Application and Server Logs using UNIX Commands for issues investigation
- API and Webservices using Postman and JMeter
- Developed SQL Scripts to perform verification in the Database System
- Running Automation Scripts and verification of the result
- Test Summary Preparation, Test Result Reporting and Test Closure (UAT sign off)

JTC Corporation | Software Testing Engineer

Apr 2011 - Oct 2011, Singapore SG

- Test Case Creation based on defined design specifications document
- Test Case Execution (Defect Retesting, Regression)
- Defect Management
- Test result status reporting
- Support for Business Users during User Acceptance Test

Starhub Ltd. | Software Tester

Jun 2010 - Nov 2010, Singapore SG

- Test Case Creation based on defined design specifications document
- Test Case Execution (Defect Retesting, Regression)
- Defect Management
- Test result status reporting
- Support for Business Users during User Acceptance Test

PLDT | Software Quality Analyst

Apr 2009 - Apr 2010, Manila PH

- Test Case Creation based on defined design specifications document
- Test Case Execution (Defect Retesting, Regression)
- Defect Management
- Test result status reporting
- Support for Business Users during User Acceptance Test
- API Testing

Globe Telecoms | Software QA Tester

Jul 2008 - Mar 2009, Manila PH

- Test Case Documentation
- Test Case Execution and Verification
 - ETL Audits, ETL Logs, ETL WorkFlows
 - Data Source to Staging Server
 - Staging Server to Target Databases
 - ETL Batch Files
- Defect Management
- Test result status reporting

Alsons/AWS | QA Engineer

Sep 2007 - Jul 2008, Manila PH

- Test Case Creation based on defined design specifications document
- Test Case Execution (Defect Retesting, Regression)
- Defect Management
- Test result status reporting and Test Closure

Blue Eyed Dragon Technology

Apr 2007 - Sep 2007, Manila PH

- Test Case Creation based on defined design specifications document
- Test Case Execution (Defect Retesting, Regression)
- Defect Management
- Test result status reporting and Test Closure
